

" A WARM HEART FOR COLD MICROSCOPY"

Symposium on the occasion of the retirement of Peter M. Frederik

Date: Friday October 30th 2009
Place: Filmzaal "the Black Box"
TU/e Campus
Eindhoven

TU/e

L.S.

Peter Frederik devoted a large part of his scientific life to the development of cryo-electron microscopy. His success in doing this is reflected in a large number of publications, patents and even products. In the last years of his career one of his big dreams came through: the establishment of the Soft Matter cryoTEM Research Unit, a consortium between Eindhoven University of Technology, Universiteit Maastricht and FEI Company.

On October 30 2009 Peter will reach the age of 65 and will officially retire from the Unit. In honour of his contribution to science and to the development of electron microscopy at Eindhoven University of Technology in particular, we will organize a symposium celebrating his career achievements.

We hope to meet you there,

Paul Bomans & Nico Sommerdijk

“A warm heart for cold microscopy”

Symposium on the occasion of the retirement of Peter M. Frederik

On Friday October 30th 2009
Filmzaal “the Black Box”, TU/e Campus,
Eindhoven

Program

13.30 hrs.	<i>Arrival and coffee</i>
14.00 hrs.	Opening: Bert de With (TU/e)
14.10 hrs.	Ishi Talmon (Technion, IL) “Cryo-TEM, a perspective”
15.00 hrs.	Wim Busing (FEI Company) “PMF , or Particles, Microscopy and Future”
15.20 hrs.	<i>Coffee</i>
15.50 hrs.	Eddie Wisse (UM) "A Maastricht window to hepatic fenestrae"
16.20 hrs.	Emilie Pouget (CNRS, Bordeaux), “The CaCO ₃ nucleation on an organic surface: a time-resolved cryoTEM study”
16.50 hrs.	Paul Bomans (TU/e) "1978-2009, about cabaret and science"
17.10 hrs	<i>Reception</i>
